Hosting organisation

- The AWO Kita Mikado is located in the east district of Karlsruhe in a quiet location. In four groups, 64 children aged 1 to 6 years are accompanied, supported and cared for.
- The bilingual concept (German / French) as well as the discussion of scientific topics are the focus of our daycare. The Baden-Württemberg orientation plan is implemented using the pedagogical concept of educational and learning stories according to Margaret Carr as adapted by the German Youth Institute (DJI).
- **Every child is respected for their uniqueness and accepted as they are.** We observe the “Magic Moments”, the child's potential with their individual strengths and resources, and specifically promote these through differentiated activities. Good cooperation between parents and educational professionals is particularly important to us.
- **Discovering and researching is another focus of our facility:** experiencing cause and effect, experiencing natural phenomena up close and becoming little explorers. The focus is on the child with his questions, observations, ideas and reflections on a wide variety of topics. It's an exciting process that gives us a lot of joy. The indoor and outdoor area with its different areas invites children to play creatively.
- Your tasks are supporting the educators in one group of children in their daily activities, supporting the kitchen (preparing, cleaning after breakfast and lunch), but as well realizing your own project with the children.
